

The background of the image is a dark blue night sky with a grid of bright white stadium lights. In the foreground, a green soccer field is visible. A large, reflective soccer ball is positioned on the right side of the field. Numerous circular tokens, each featuring a different national flag, are floating in the air around the ball. The text 'CRYPTO' is in white, and 'SOCCER' is in red, with a small soccer ball icon replacing the letter 'O' in 'SOCCER'.

CRYPTO SOCCER

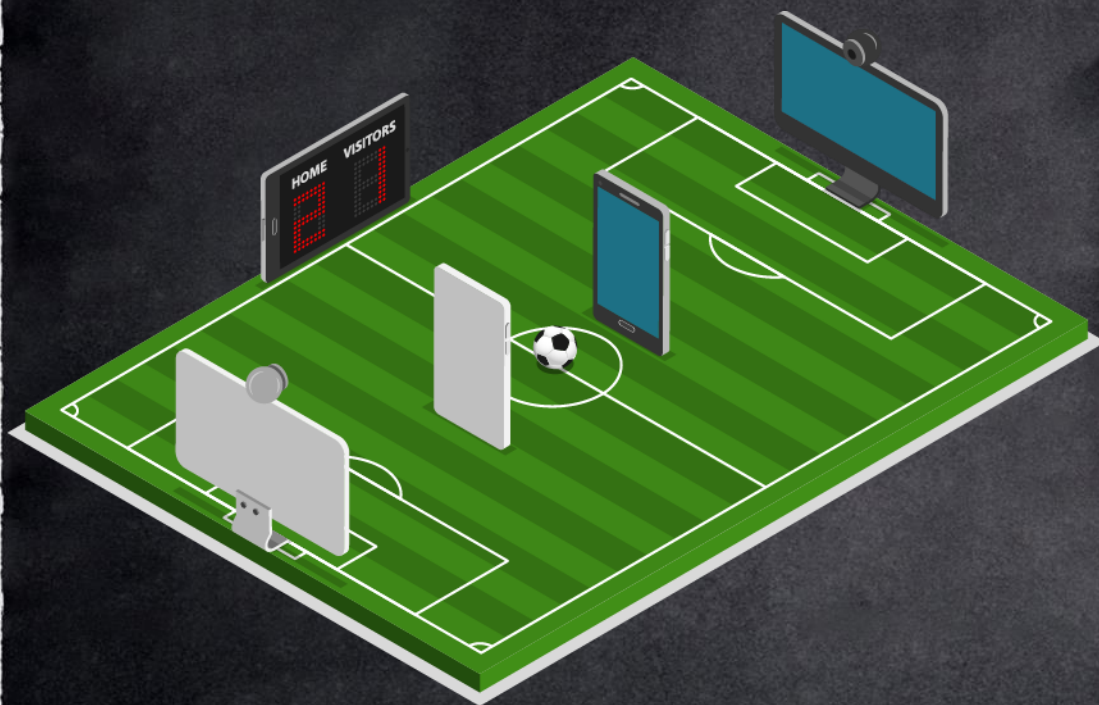

GAME AVAILABLE ON 31 / OCT / 2021

INTRODUCTION

Crypto soccer is an NFT blockchain game hosted in the BSC that has unique and innovative features that allow its users to participate directly and without limits in the self-sustaining economy of the game Crypto soccer has been designed and developed unifying the best features of the games blockchain and adding a fun, competitive, fair and totally innovative gaming system for users.

GAMEPLAY

Crypto soccer is based on a system of direct participation by users in each of the available options such as: trading of teams, stadiums, Coaches and sponsorships as well as participation in leagues, tournaments and duels. Options with an intuitive, fast and fair game system for everyone. This participation system coupled with the economic system of the game is what makes it possible for players to receive rewards.

EQUIPMENT

Crypto soccer has 32 teams each with unique statistics that will allow you to create your own game strategy.

Each Crypto soccer player must own a team to unlock all the game options such as daily missions, leagues, duels and tournaments.

This equipment will be your property and you will be able to buy and sell more equipment in the market, this trade can only be carried out with the internal currency of the CSC game.

There will be 10 teams with a legendary version that can only be purchased in the game's pre-sale and will be totally limited, these will have a percentage increase in their statistics and you can also buy and sell them in the game market.

STADIUMS

Crypto soccer players will be able to find 7 types of stadiums.

The number of available stadiums is limited which will make the value of each one greater. The player who owns a stadium will generate automatic income in the CSC token that will be related to the statistics of the field and this income will be obtained from the games played in their stadium in the League and Tournament game mode.

The stadiums will be your property and you will be able to buy and sell more in the game market.

Coaches

In crypto soccer you will have the option of hiring Coaches who will help you increase the statistics of your team which will allow you to have a greater chance of victory in each match. Each coach has special characteristics, you only have to hire the one that best suits your team and game strategies. The Trainers can only be traded in the game market only with the CSC currency. You can also get coaches in special events like leagues and tournaments. The scarcity of this element will help create a better economy based on the scarcity of supply and demand from crypto soccer users.

SPONSORSHIPS

In crypto soccer you will have the opportunity to acquire sponsorships for your team which will allow you to generate greater rewards in the CSC token by completing the daily missions. Each sponsorship has a special contribution quota and varies according to its sponsorship category.

Like stadiums and coaches, sponsors can only be purchased in the market with the CSC token, and in some special events and tournaments.

GAME MODES

Crypto soccer has been developed with a totally new, intuitive, fair and competitive game mode system where there are no limits to fun and income generation in the CSC token.

Crypto soccer will feature the following 5 game modes:

- *Friendly match*
- *Tournament*
- *League*
- *Duel*
- *Daily Missions*

GAME MODES

Friendly match: In this game mode you have the possibility to play matches against the machine with random difficulties, which will allow you to improve your playing style and better plan your strategy for the following matches in league and tournaments.

Tournament: In this game mode you have the possibility to compete against 7 other crypto soccer users to win.

Each player must pay a fee in the CSC token in order to participate in the tournament, 90% of the total pool of the 8 players will be paid to the winner of the tournament.

This game mode has no limits, you can participate unlimitedly which gives you the possibility of generating greater income in the CSC token.

GAME MODES

League: Crypto soccer has 2 types of leagues

Master League: In this game mode you have the possibility to compete against other random users of crypto soccer in a total of 10 daily matches. Each won match will give you a total of 3 cups, a tied match will give you 1 cup and a lost match will subtract 3 cups.

The number of cups will be added to the league table worldwide and will last for 7 days, the best players will receive rewards in the CSC token and special game items such as coaches, stadiums and sponsorships.

Each player must make 1 single payment in the CSC token when entering the league and will be able to play a total of 70 games to add the highest number of cups that places him at the top of the table. 90% of the league's pool will be distributed among the winners.

GAME MODES

VS

Crypto Soccer League: this game mode will be available to all players with no entry cost where you can play against other crypto soccer users and will have a total of 10 daily matches. A won match will give you 3 cups, a tied match will give you 1 cup and a lost match will subtract 3 cups. The duration of this league is 30 days and the best players will receive rewards in the CSC token.

Duel: In this game mode you have the possibility to compete against other crypto soccer users in a 1VS1 match where each player will place a bet in CSC tokens and the winner will win the total pool.

This game mode has no limits, you can participate unlimitedly which gives you the possibility of generating greater income in the CSC token.

Daily Mission: In this game mode, crypto soccer users must comply with the daily tasks, these are restarted every 24 hours, the fulfillment of these tasks will give each player a reward in the CSC token.

TOKENOMICS

The CSC token is crypto soccer's native token that allows players to purchase in-game assets such as teams, stadiums, strategies, and coaches to boost their earnings. CSC will also be used as a reward token and entry currency for game modes such as: Duel, League and Tournaments. A percentage of CSC tokens will be burned from each purchase transaction and entry to special events, this to generate organic growth in the value of the token while maintaining a healthy economy within the game.
